

## Rhododendron 'Humboldt'

Rhododendron 'Humboldt'

<b>Type</b>	large blooming hybrids
<b>Flowering colour</b>	lilac/violet
<b>Flowering time</b>	mid-late May
<b>Height</b>	up to 150 cm
<b>Speed of growth</b>	medium-strong growth
<b>Colour of the leaves</b>	fresch green
<b>Foliage quality</b>	evergreen
<b>Flowers with macula</b>	yes
<b>Winter hardiness zone</b>	6b
<b>Growth-form</b>	broad and straight upright

This rhododendron has a slightly more upright habit. The flower buds are purple, the flowers light lilac-purple with a dark purple macula. The flowers do not open into a bell shape, but almost flat, making them seem relatively large. In case of heavy snow, the branches can bend.
